

The Automobile Insurance Rate Board's (AIRB) vision is for automobile insurance to be accessible, equitable and sustainable for all Albertans. Our mandate is to regulate automobile insurance rating programs in Alberta. No insurer may charge a premium unless it is based on an approved rating program.

Each year the AIRB conducts an Annual Review to review the automobile insurance industry experience as presented by its consulting actuary and receive comments from stakeholders. The AIRB is hosting a video conference open meeting to hear from stakeholders. The comments received will be considered when the AIRB establishes its 2021 Industry Benchmark Schedule for private passenger vehicles to be used in the review of insurer filings to change their automobile insurance rating programs for basic and additional coverage.

Presenters at the open meeting will include industry stakeholders, the AIRB's consulting actuary and the Consumer Representative.
