

Bulletin 03-10

October 15, 2010

To: Private Passenger Automobile Insurers

Subject: Rating Profiles

In 2010, rating profiles were developed in a joint effort between the Insurance Bureau of Canada (IBC) and the Canadian Automobile Insurance Rate Regulators Association (CARR) to provide a standard set of profiles for all private delivery jurisdictions. Alberta is implementing the private passenger rating profiles as of January 1, 2011. Insurers must include completed rating profiles with applications and notices relating to private passenger rating programs that are submitted after January 1, 2011.

The profiles are posted on the AIRB website at airb.alberta.ca/filing-guidelines/#forms with notes and instructions. The forms for the profiles, as well as notices and applications under the *Automobile Insurance Premiums Regulation* are found there. Please share this notice with any individuals involved in putting together submissions. Anyone using the forms should check the website periodically to ensure they are using the current version of the relevant form.

It is the intention to post five of the profiles on the AIRB website that will be updated periodically. All insurers must submit the five profiles by March 15, 2011, if they have not been provided through a previous notice or application. See the form on the website for specific instructions.

Please direct any questions to airb@gov.ab.ca or call 780-427-5428.

Sincerely,
