## **Bulletin to All Private Passenger Vehicle Insurers** **Grid Base Premiums Effective January 1, 2021**

### **Purpose:**

The Automobile Insurance Rate Board (AIRB) is issuing this Bulletin to advise all private passenger vehicle (PPV) insurers operating in Alberta the 2020 review of Grid base premiums has been completed on data to December 31, 2019.

### **Background:**

In accordance with the Automobile Insurance Premiums Regulation (Premiums Regulation), Schedule 3, Section 3(1), the Automobile Insurance Rate Board (AIRB) may no later than October 1 each year, adjust the Grid base premiums based on the Annual Review completed under Section 9 of the regulation. In addition, in accordance with Schedule 3, Section 2 of the regulation, the AIRB must publish a table determining the base premium for a driver by the territory in which the policyholder resides and the choice of policyholders coverage on or before October 31 each year.

### **Process:**

The AIRB recognizes the importance and impact of its decisions on the insurance industry and consumers, and when deciding on an adjustment to Grid base premiums we take a number of factors into consideration. In addition to stakeholder comments and analysis from our consulting actuary, Oliver Wyman, other factors considered include:

- Premium stability;
- Subsidization by the competitive market, if any;
- Risk sharing pool size and profitability;
- Impact on Grid population;
- Impact of the rate change on Grid; and
- Current Alberta market environment.

Based on the information available the AIRB made its decision and is issuing Order No. 01-2020 increasing the current Grid base rates by 5% effective January 1, 2021. The adjustment is in accordance with Schedule 3, Section 3(1) of the Premiums Regulation.

Order 01-2020 includes the following table of base premiums for the Grid rating program in satisfaction of the requirements under Schedule 3, Section 2 of the regulation. All insurers must implement these premiums effective January 1, 2021.
